

cancer coverage

Plan info and resources to help secure the sale.

quote now

Just over two million people are diagnosed with cancer in the U.S. each year.¹ It's a stressful and costly diagnosis, leading to high medical bills. Cancer supplemental insurance provides benefits for a first-time diagnosis of cancer. Customers can then use this money however they need, allowing them to focus on their health instead of their finances.

Highlights

- All covered family members get equal benefits, including dependents.
- No doctor, network, hospital, or treatment restrictions.
- Lump-sum cash payment upon first diagnosis of cancer.
- Plan pays in addition to any other coverage customers may have.
- Money can be used for anything – treatment, mortgage or car payments, and household bills – with no restrictions.

Plan features

- Seven benefit plans to choose from: \$5,000, \$10,000, \$15,000, \$25,000, \$30,000, \$50,000, or \$75,000.
- Product can be sold year round as a complement to other insurance or as a stand-alone policy.

Eligibility

- Renewable up to age 85.²
- Premiums are locked in at enrollment age, starting with age 18 up to age 70.
- Pre-existing conditions limitations apply.
- [Availability and plan options vary by state.](#)
